## 1 Introduction

This is my intriduction to Overleaf. I am looking forward to learning from here.

### 1.1 Overview

This is my intriduction to Overleaf. I am looking forward to learning from here.

### 1.2 Literature review

This is my intriduction to Overleaf. I am looking forward to learning from here.

Table 1: Caption

I want to solve the equation which is  $x^2 + y^2 = z^2$  or which the result is not known yet. The equation looks like:

$$x^2 + y^2 = z^2 \quad (1)$$

# Quadratic Equation

$$ax^2 + bx + c = 0$$

*here,*

'a' and 'b' are the coefficients,  
'x' is the variable, & 'c' is a constant

Figure 1: Quadratic Equation
